PROVA 2

Lombardy produces 20.6% of the national added value: first place in Italy and fourth place in Europe. Thanks to its fortunate geographical setting and its dynamic business system, it is also the first Italian region both for its volume and value of commercial exchange with foreign markets. The privileged geographic position and the inclination of its people have allowed Lombardia to operate on the national and international scene as an accredited dynamic interlocutor from an economic point of view, and to become one of the most industrialised areas in Europe.

Handwritten signatures in blue ink. The central signature is the most legible, appearing to read 'Paolo T...'. To its left is a stylized signature, and to its right is another stylized signature. Below the central signature is a large, sweeping flourish or signature element.
